Hi Sharon, We have heard nothing on the refrig part do you know? We have a situation, the case is an officer involved shooting from 6/16/15. At first it started with VPD and TCSO both claiming the sample, saying Edward put the wrong agency on the chain (VPD – Sgt Maurice) of course all of this didn't start until about a month ago. As I review the case it's a strong possibility that the results are incorrect (at least the drug confirmation) to make sure we are retesting all the samples for the day the officer was tested both drug and alcohol confirmations should be complete by Wednesday. The TCSO Det Zamora intention is to retest the sample once he had possession (or the chain changed). I have ask Det Zamora to get his boss involved to make the final determination who the sample belongs to or should they share and a policy so the phlebotomist knows what to do in case of officer involved shooting. Right now it stands as he said vs he said – I'll scan you the letter Sgt Maurice sent and call tomorrow when I have the correct result. Thanks, Sandy
